

CURA

Cura belongs to the second price group.

Cura is the collection of the upholstery fabrics produced by the Polish manufacturer, distinguished by the subtle, melange weave and pastel colour spots. It has high technical characteristics, such as abrasion resistance of 100,000 Martindale cycles, very good resistance to light and rubbing, and very high pilling resistance of 4-5 on a 5-point scale.

Cura collection has the EN 1021 flame retardancy certificate thanks to which the furniture upholstered with this fabric can be safely used in public utility facilities.

TECHNICAL DATA

Composition	98% post-consumer recycled polyester, 2% polyester
Weight	420 g/m ²
Abrasion resistance	100 000 Martindale cycles
Colour fastness to light	5-8
